

The Body and Blood of Christ

14th June 2020

Communion with Christ in the Eucharist presupposes his true presence, effectually signified by the bread and wine which, in this mystery, become his body and blood. The real presence of his body and blood can, however, only be understood within the context of the redemptive activity whereby he gives himself, and in himself reconciliation, peace and life, to his own. On the one hand, the Eucharistic gift springs out of the paschal mystery of Christ's death and resurrection, in which God's saving purpose has already been

definitively realized. On the other hand, its purpose is to transmit the life of the crucified and risen Christ to his body, the Church, so that its members may be more fully united with Christ and with one another.
